BIOGRAPHY

An is a second-year M.S. student at Korea Advanced Institute of Science & Technology (KAIST), working with Professor Daeyoung Kim and Professor Anh Totti Nguyen. His M.S. program is fully funded by the Hyundai CMK Global Scholarship. Prior to joining KAIST, An obtained his B.S. degree as the valedictorian at the University of Information Technology (UIT), Vietnam National University - Ho Chi Minh City (VNU-HCM) in 2023, where he worked with Dr. Ngoc Hoang Luong. His research interests include fairness and interpretability in Large Language Models (LLMs)/Vision Language Models (VLMs). His works have been accepted at top venues: ICML, AAAI, GECCO, etc. *An is actively seeking PhD opportunities starting Fall 2026* to continue advancing research in, but not limited to, AI fairness, bias mitigation, interpretability, evaluation and analysis. If you believe he would be a good fit for your research group, please feel free to reach out at an.vo@kaist.ac.kr.
